Condition of the Indians.

The committee appointed to report at the recent Conference of the M. E. Church, held at Vancouver, W. T., submitted the following:

The committee to whom was refered the Condition of the Indians would report—There are within the bounds of the Oregon Conference (taking all the reliable reports,) about 38,000 Indians. Of these 7,000 are in Oregon and 31,000 in Washington Territory. 19,000 in Washington Territory and 3,300 in Oregon are embraced in treaties made and ratified. 22,300 in all.

These treaties have been made in good faith on the part of the Government, and embrace or embody all things needed to change the entire condition of the Indians.

It is provided that mechanics, farmers, doctors, teachers, superintendents of farming and instruction, with mills and all things needed to bring about their civilization, shall be supplied.

The treaty provisions are all that could be expected on the part of the Government, to bring about *their* civilization. The great embarrassment in all the workings of this department have been the immorality of very many of those who have been employed and kept about the Reserves.

Whatever may be said about the Indian's capacity for improvement, one thing is positively certain, they are great imitators.

Let them be surrounded by those who are good, and a marked change is visible to all who may behold them.

On the other hand, let them be surrounded by the profane, intemperate and licentious, and their fall will be accelerated like the fall of an inanimate body.

Your committee believe the Indian would be better, turned out in perfect wildness, far away from the white man, to dig his roots, to hunt and subsist upon his game, to go to his grave in darkness in reference to the future, rather than to have the promises and *provisions* of the Government coming to him through channels of rottenness, which must evidently destroy his body and his soul.

The prevailing sentiment in the world in reference to the Indian is, nothing can be done for his permanent good. That Providence, stern Providence, has filed his doom, and to try to help him, is to be found fighting against God. Happy had it been for them if the church had not fallen into the same channel of unbelief, and abandoned him to evil and seducing men, who wax worse and worse, in deceiving and being deceived.

Your committee take pleasure in reporting that, under the present administration, there is a design and a seeming determination to faithfully carry out the treaty provisions of the Government with the Indians; to employ and keep only those in the service who shall contribute to their good.

Changes have been and are being made in the service to accomplish this long desired end.

The church seems awakened from her drowsiness, and is putting on strength to work for the salvation of the heathen at her door.

Prayer, ardent, prevailing prayer is being offered, and the cloud surcharged with blessings has appeared in the heavens; more dew-drops of mercy and salvation have fallen upon the poor Indians, and they are begining to sing in their camps and in the sanctuaries provided,

"Alas! and did," &c.

and the hallelujah chorus,

"I do believe, I now believe that Jesus died for me."

There are quite a number of Indians upon the Yakima Indian Reservation that give good evidence of having been regenerated. From fifty to two hundred attend with great exactness upon the Sabbath services, and quite a number are ready at all times to declare what great things Jesus has done for their souls. Fruit, long continued *good* fruit is to be found upon the plants cultivated, or from the seed sown by Dr. Whitman, Spaulding, Walker and Eells, with our ever beloved brethern who have position among them.

Therefore, *Resolved*, That it is the duty of this body to do all it can by reasonable means and measures to aid the department in selecting for, and keeping upon the Reserves, those and those only, who are proved to be persons of Christian morality.

JAMES H. WILBUR,
T. F. ROYAL,
GEO. HIGHBANKS,
N. A. STARR,
Committee.

Preparing Paint and Painting.

The best, most durable and neatest kind of paint for any kind of tools or implements, is a light blue. This is far better than red, as blue will reflect more of the heat of the sun than red. Consequently, the wood which is painted, will be heated and sun-checked less when painted blue. During the warm days of March, let tools and implements be washed clean and painted blue. To prepare blue paint that will dry soon, procure good boiled oil, which will cost about ten cents more per gallon than the unboiled. Procure a quart or more, according to the amount of painting to be done, of liquid drier or laquer. Then take one pint of oil, half a pint of drier, and mingle, by stirring with a stick, enough white lead to make it about as thick as cream. Zinc white is the best, unless a man has an apparatus for grinding the lead. Zinc will require no grinding, but must be thoroughly stirred, and all the lumps mashed. Now put in one or two, or three table spoonfulls of Prussian blue, and stir thoroughly. But a small quantity of blue will be necessary to make a handsome blue paint. If it appears too light colored, put in more blue. Paint, prepared a few hours before it is used, will work better than that just prepared. If the oil and drier are good, paint prepared according to the foregoing directions, will dry in from one to two days, although it should be allowed from one to two weeks to become hard. For green paint, let the white lead or zinc, and oil and drier be prepared in the same way as for blue, and put in green, instead of blue. Continue to put in green until the shade is dark enough to suit the fancy. Yellow paint may be prepared in the same manner by using chrome yellow with the white lead.—*Country Gentleman.*

The scarlet trowsers of the Ethiopian phalanx are beginning to be seen in the streets of Washington, reminding the *Home Journal* of the old poet's description of Spring:

"When May
Begins to diaper the ground with beauty."

Now that the Merrimack is destroyed, the rebel navy is reduced to one steamer, the Nashville, and one tug, the tug of war.

FRIDAY MORNING, AUGUST 29, 1862

ITEMS OF NEWS FROM WALLA WALLA.—We learn by an Express which arrived at Walla Walla from Col Maury's command that he was pushing his force towards the Salmon Falls without interruption

The Express stated that tolerable certain information had been received by Col Maury, that the Van Norman children were still with the Indians

Some emigrants had passed the troops and reported that four thousand wagons were still behind.

There was evidence that a company of eight emigrants had been killed by the Indians, and their money taken from them, consisting of treasury notes and gold. The Indians had offered gold coin in trading with the emigrants.

Some of the stock of the Overland Stage Company had been seen by emigrants in possession of Indians, and emigrants had been guilty of the very reprehensible conduct of exchanging their powder and pistols for horses and other property.

Col. Maury has been compelled, in some cases, to furnish food to emigrants to prevent suffering

Everything is now quiet in the Grand Ronde valley.

Quite a company of emigrants from Knox and Warren counties, Illinois, had taken claims in Powder river valley.

SUGAR AND MOLASSES IN ILLINOIS.—An examination by the Secretary of the State Agricultural Society of Illinois, it is said, furnishes evidence that more than fifty thousand acres of land in that State are the present season planted with the seed of the Chinese sugar cane; and at the last accounts the crop looked remarkably well. A good crop of sugar cane will yield from 150 to 350 gallons per acre Estimating the yield at 150 gallons, the product would be *seven millions five hundred thousand gallons.*

It will thus be seen that the sugar cane has become one of the great staple crops of Illinois. Vast quantities are also raised of the cane in Iowa, Wisconsin, Indiana, and Ohio—and even in Minnesota—showing that wherever corn can be successfully grown sugar cane can be raised in perfection.

The development of the sugar cane interest has been brought about by the stimulus offered in the way of premiums by the State Agricultural Society. The syrups and sugars first presented to the Agricultural Board, were crude and imperfect. Every year they were more perfect, and now the article, by means of improved apparatus, are becoming excellent so much so that the syrups readily take the place of the best syrups of Boston and St. Louis. Fair sugar is now made, and this is rapidly being improved. Illinois owes much of its success in this and other branches of industry, to the labors of her Agricultural Society. Its citizens realize this fact, and every year there is granted from her Treasury for the use of her Agricultural Society, to be paid out in premiums, three thousand dollars

We are glad to see that the Oregon State Agricultural Society offers premiums for Chinese sugar cane syrup. We hope we have farmers who will make a thorough trial of this cane. The present year it is quite probable that we shall have emigrants who are well acquainted with growing the cane and working it up into sugar and syrup. Molasses, prepared for refining, in Illinois, costs twenty-three cents per gallon

We have yet much confidence that sugar cane can be grown successfully in this valley *The present hot weather is just the thing to perfect sugar cane.*

THE RAILROAD CONTROVERSY.—In the matter of Bush vs. the Oregon Steam Navigation Company, wherein the plaintiff asked to have the defendant restrained from constructing a railroad across plaintiff's land and claim at the Cascades, the District Court for Washington Territory, Judge Wyche, has decided that the construction of said road is trespass and waste, and that an injunction shall issue, on plaintiff's giving a bond of indemnity according to law. The amount of the bond will not exceed twenty thousand dollars

U. S. SANITARY COMMISSION.—We call the attention of our readers to the appeal of A Holbrook, Esq., found in another column, on behalf of the U. S. Sanitary Commission, to our citizens, for assistance in aid of the sick and distressed soldiers in the Union army This is an important appeal, and should receive the hearty response of every loyal citizen in Oregon We shall refer to this subject more at length hereafter

PERSONAL.—We are under obligations to Mr Charles Newell, son of W H Newell, of Dalles *Mountaineer*, for copy of their daily of Wednesday

The Union League at Baltimore now numbers over fifteen thousand members It is of immense service to the military, and is a most effective agency in keeping the secessionists in check.

Urgent Appeal of the U S Sanitary Commission

The U S Sanitary Commission have issued an address appealing to the people of the United States on behalf of the sick and wounded of the People's Armies, East and West. For their relief, it asks money and supplies *at once* and *in abundance* The address states—"That the Treasury of the Commission is now nearly exhausted when, if it had a hundred thousand dollars at its command it would still be too weak for the urgent work before it and compelled to [illegible] ish for want of means for the Army of the Potomac alone" The signers of the address make the astounding assertion, that thousands are now lying without sufficient food or attendance in the camps and depots on James river. Very many of them must die, who could have been saved by a blanket, a suit of hospital clothing, and a few days allowance of proper diet and stimulants instead of the ordinary rations The Committee has saved hundreds if not thousands of men since this campaign began, by supplying these inexpensive wants Since the organization of a flotilla of steamers and sailing vessels, more than ten thousand sick and wounded men have been transported to the North by the Commission, with special attention to their care and comfort

At this moment, the magnitude of this work is appalling in view of the multitude of those, to whom the question whether help from the people shall reach them to day or to morrow, is a matter of life and death and in view also of the moral certainty that a few days will increase that number by thousands contributions in money are earnestly solicited Will not the loyal and the generous men and women of Oregon, deprived as they are of the opportunity of furnishing such articles as are needed, and of rendering personal aid, be ready and glad to give some of the money which is so urgently asked for

The subscriber has been appointed an associate member of the Commission for this State, and in its behalf, earnestly invites liberal and prompt contributions which may be forwarded to him by the various agents of *Wells, Fargo & Co* and *Tracy & Co* who have generously offered to assist him in making collections, free of charge All amounts paid will be publicly acknowledged and as it is impossible to make personal appeals, it is hoped that all who care for the comfort of the sick and suffering soldier and sailor, will at once send in their mite—large or small—of their interest in the welfare of those, who are fighting and dying for the Nation's life

The Situation in Virginia

The Sacramento *Union* of the 22d offers the following interpretation of the military situation in Virginia

General Halleck is now the real Commander in Chief of the Union armies By his order the army commanded by McClellan has been withdrawn from a position in which offensive operations were found impossible, with the view of concentrating all the available forces between the Rapidan and the Rappahannock, delivering battle somewhere in the vicinity of the former stream, and, if successful, pursuing the defeated enemy to Richmond, which must then be evacuated by those of the rebels who would save themselves from capture Halleck's idea is to substitute the plan of concentration and "piercing the center" for the anaconda policy The perilous point is to effect a junction between the two armies, or to bring the Army of the Potomac within supporting distance of the Army of Virginia before Lee and Jackson can combine to crush Pope's command To remedy the failure of confidence in McClellan, General Burnside has been appointed to supervise and insure rapidity of movement We know that the evacuation of the Peninsula has been successfully accomplished without any further loss of men or material The questions to be answered are Was Pope attacked before the Army of the Potomac was landed and pushed south of Fredericksburg? If attacked did he maintain his position, or succeed in getting safely to a point of junction with the other forces? On a fair field, this concentrated force can beat any number of the enemy, for no army of over a hundred thousand men can be brought into action in a pitched battle If this be the plan, its successful execution will give Richmond and Virginia to the Union cause in less time than McClellan required to get possession of Yorktown This is a sanguine view of the situation, not, however, without strong support in the most recent accounts from the theater of action. We have no dispatches from the East to offer this morning. The rule of a people who are determined to conquer at any cost, is to hope for the best, but prepare for the worst

UNION MOVEMENT IN LOUISIANA.—"The Union Association" of New Orleans has issued an address to the people of Louisiana, pointing out to them the blessings they enjoyed under the Federal Government before secession was agreed upon, the great disabilities that have, in every respect, been entailed on them by rebellion, urging on them the impossibility of the establishment of a Confederate Government, and the propriety of disavowing henceforth all idea of allegiance to that rebellious organization, and concluding as follows "Under these circumstances, we appeal to all those who have the present welfare and the future prosperity of this city and State at heart to join with us in re establishing that political, industrial, and commercial prosperity which so lately existed in our midst, under the benign influences of the Union, which, when re established, will again produce those happy results which existed throughout the entire country at the time of their interruption Then may Louisiana again adopt her ancient escutcheon bearing the motto, 'Union, Justice and Confidence'

LOOKING TO THE FUTURE.—Jeff Davis says in his letter on the conscription law to Governor Brown of Georgia

At some future day after our independence shall have been established it is no improbable supposition that our present enemy may be tempted to abuse his naval power by depredations on our commerce and that we may be compelled to assert our rights by offensive war"

This is afforded a glimpse of the future should we fail to subjugate the rebels They would by aid of their conscriptions and other appliances of a military despotism be a formidable and standing menace and compel continual and enormous expenditures of money and the precious time of our laboring men in self defense If we are ever again to enjoy the sense of security and the profits of peace in this country it will be after we have conquered the rebels

GEN. McCLELLAN AND THE NEGROES.—In the United States Senate just before its adjournment Mr Harris, of New York read a letter from Gen McClellan, saying that all negroes male and female, who have come into the camps of the Army of the Potomac on the Peninsula, have been protected and set to work at wages in performing services which would otherwise have devolved upon our soldiers The supply of these operators has thus far been insufficient for their wants

Rates of Postage between the United States and Mexico

POST OFFICE DEPARTMENT,
July, 4, 1862

By the recent postal convention with Mexico, proclaimed by the President on the 20th June, 1862, the following rates of postage are established of which postmasters will take notice

1st The single letter rate (inland three and sea seven cents) is ten cents per half ounce, and for each half ounce or over an additional rate *and prepayment is required* This applies to all letters sent to Mexico from the United States by sea

2d On all letters *received* from Mexico by sea the United States domestic rate of postage is to be charged, rating them at the first United States post office at which they are mailed to their destination either three or ten cents per single rate *This is to be collected on delivery*

3d On all letters sent to or received from Mexico *when not conveyed by sea* the United States domestic postage only, of three or ten cents the single rate is to be charged This must be prepaid at the mailing office *on letters sent*, and collected at the office of delivery *on letters received*

4th The *sea rate* on printed matter sent to Mexico is one cent for each newspaper and one cent per ounce (or fraction of an ounce) on all magazines periodical publications, and other printed matter and thus is to be added when sent by sea, to our usual inland rate of postage, and thus combined rate *must be prepaid* at the mailing office in the United States When sent by land the United States inland rate of postage only is to be charged and prepaid at the mailing office

5th On all such printed matter *received from* Mexico, only our usual inland postage is to be collected, and this must be paid in all cases on delivery at the office of address

6th These regulations must be strictly observed, as no accounts are kept with the Mexican postal department

First Assistant Postmaster General

FROM THE UPPER COUNTRY.—The following items are taken from the *Mountaineer* of the 27th inst

ATTEMPT TO FIRE THE TOWN.—About ten o'clock last night a bright light was noticed in the unoccupied stable directly west of the Umatilla House On examination it was discovered that some miscreant had entered the building and having fired the loose straw laying around had placed a bottle filled with turpentine near it doubtless for the purpose of causing a general conflagration Fortunately the fire was discovered in time to extinguish it before any damage was done

JOHN DAY COUNTY.—Petitions are in circulation asking that all that portion of Wasco county, known as the John Day district, be erected into a new political organization to be termed John Day county The petition already has eight hundred signatures, and several hundred more will be added before the meeting of the Legislature

THE EMIGRATION.—The first of the overland emigration has already reached the Dalles, and report that thousands are yet in their wake, the great majority of them bound for Oregon and Washington Territory The emigrants that we have seen are men who have hurried through for the purpose of prospecting the country leaving their teams in Grand Ronde and John Day valleys to recruit

SAN FRANCISCO, August 21

A ferocious individual named Peter Kiernan was arrested last night at the Central House, Sansome street, for shooting at his brother four times He threatened the life of any officer who attempted to lay hands on him.

An Executor's sale of real estate of David C Broderick takes place September 11th

The *Sonora*, for Panama, sailed this morning with 125 passengers and treasure amounting to $921,565, for New York, England, $500,126 Panama, $10,000

A private telegram to Coleman & Co., received some days since, just makes its appearance, and says Virginia tobacco, pound lumps in half boxes, is worth $1 per pound The article looks well for November

A party of men squatted yesterday on Yerba Buena graveyard The Street Superintendent got a posse of men this afternoon, demolished the fences they had put up and drove them off

The incompleteness of the military roll makes it necessary to be retaken Much dissatisfaction exists with persons who are liable to draft, and have not been enrolled

The leading rates for currency bills were 10@12 per cent discount Gold bars offered at 780 fine

There is in Philadelphia, as everywhere else, a great demand for small change The *Ledger* thus describes the rush for cents at the Mint

Thursday being one of the days assigned for the exchange at the Mint of nickels for U S Treasury Notes, the doors were besieged with an anxious crowd before seven o'clock and by twelve o'clock the hour set apart to commence the exchange there were several hundred persons present, men, women and boys Lines were formed of the men and boys on one side of the building and of the women on the other the former extending half a square along Juniper street Many of the boys were provided with a small basket to carry the cents in To preserve order a posse of the reserve police were in attendance, but their services were not required Though many of those who desired cents stood in line for hours waiting an opportunity to get into the Mint, they had to go home without them as the supply on hand was exhausted before half of the applicants were accommodated We understand that two thousand dollars worth of cents are coined daily at the Mint making twelve thousand dollars worth a week About two thirds of the coinage goes to New York Boston, and other cities, leaving but four thousand dollars worth a week for distribution in Philadelphia Only five dollars worth are given to each applicant at the Mint But it is said that boys are employed to stand in the line and by this means take a large amount of cents

WONDERS OF PHOTOGRAPHY.—Photographers have taken the sun himself when eclipsed they have caught the impression of a shell whizzing through the air discharged from the mouth of a ten inch mortar they have caught the wave as it broke on the shore the spindle piercing even the drops falling from its toppling crest more they have not failed in getting a good impression of the head of a criminal executed by the guillotine catching the severed head in mid air as it fell into the basket below Photographic book marks and visiting cards are sold by the thousands while photographic studs and wrist coat buttons, ornamented with microscopic miniatures, are now being daily produced in countless numbers at the button manufactories in Prussia portraits of a popular person, Garibaldi for instance being ordered by the hundred thousand at a time! On the authority of a careful English writer all this photographing requires the use of no less than *twenty tons of* silver per annum

NEW R[illegible].—We are informed by Mr. John [illegible], Supervisor of roads, that the new [illegible] leading South from the city located near the river bank is nearly completed, only re[illegible] a small amount of additional clearing at the foot of one of the streets, and which will require an order from the City Council to [illegible] completed. This route will be much [illegible] and more practicable than the old one, [illegible] dangerous bridges and steep places will be [illegible].

[illegible]ING.—A wager of one hundred [illegible] was won by Mr. David Monnastes, of [illegible] yesterday, upon the killing of twelve [illegible] of twenty at ten shots, one hundred [illegible]. The trial took place in the [illegible] on the opposite side of the river, and [illegible] Mr. Monnastes killing fourteen out [illegible] only one bird escaping without [illegible] at. This we call "crack shooting" [illegible] anything of the kind we have heard [illegible] birds were sprung from the box at [illegible] Mr. M. using a double-barrelled shot [illegible] took the birds on the wing. We [illegible] absent, and cannot give the result [illegible] but sufficient skill was manifes[illegible] demonstrate the fact that Mr M is [illegible].

[illegible] Yesterday was undoubtedly the [illegible] of the season. The sun was [illegible] scorching, and the shade not much [illegible] ice in your throat, ice in your hands, [illegible] pockets, was the only [illegible]fort.

[illegible] The steamer *Julia* arrived at about six o'clock last evening, [illegible] passengers but no treasure, no connection with steamers above.

[illegible] COURT.—Judge McCoy yester[illegible] Devine $5 and costs for getting [illegible] boring on the side walk, John [illegible] being drunk and disorderly, like[illegible] shall $5 and costs. Expensive [illegible] rogers in a strange city.

[illegible].—It is a matter of no small [illegible] to a very peaceable and quiet-lov[illegible] of Portland that an effective and [illegible] police be constantly kept up both [illegible] night, that order may be preserved [illegible] property of our citizens pro[illegible] denying the fact that [illegible] characters now [illegible] the city, and the number is [illegible], especially du[illegible] making it important [illegible] constantly kept up. THE WASHINGTON STATESMAN,

A WEEKLY NEWSPAPER,

Published at Walla Walla, W. T.,

BY N. NORTHROP AND R. R. REES

Terms Invariably in Advance.

One year	$5 00
Six Months	2 50
Three Months	1 75

THE STATESMAN has reliable correspondents in all the mining regions of Oregon, and Washington Territory—Powder River, Salmon River, Oro Fino, Colville, and the Bitter Root and Deer Lodge Valleys, and its facilities for obtaining news from these localities, both through its correspondents and the expresses running from Walla Walla to these points, are superior to those of any other paper published in Oregon or Washington Territory.

The paper is the same size as the *Weekly Oregonian*, and its large circulation in all the mining regions above mentioned renders it, to merchants and others, an excellent advertising medium. aug5 4mdw

LADD, WEBSTER & CO'S FAMILY SEWING MACHINES

ARE UNEQUALLED BY ANY FOR

BEAUTY AND SIMPLICITY OF CONSTRUCTION

IN

Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction, and easily kept in order; should make a TIGHT LOCK STITCH, alike on both sides of the material, and should sew any and all material that can be sewed.

It should be able to use cotton, thread, or silk directly from the spool, and to sew from coarse to fine, and from thick to thin with rapidity and without changing the tension. It should also be able to make the tension greater or less on both the under and upper thread, with uniformity, and should have a *straight* needle, curved ones being liable to break.

The needle should have a perpendicular motion—this is absolutely necessary for heavy work.

It should be able to bind with a binder, hem with a hemmer, should stitch, fell, run and gather, and should be always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk above and below, to correspond with any two colors of cloth to be united.

It should be able to make a long or short stitch, and to fasten off the seam and commence sewing tightly at the first stitch and to run easily, and make but little noise.

It should have a wheel feed, as there are in constant contact with the work.

It should not be liable to get out of order; neither should it require a screw driver or wrench to set the needle.

It should not be liable to oil the operator's dress.

It should not form a ridge on the under side or ravel.

DR. BAKER'S PAIN PANACEA.

IS composed entirely of healing gums and vegetable oil and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any however delicate to be injured by it in the least. I will continue to ask the afflicted who have not used it to try it for the following diseases. If they are not satisfied with its healing properties the money will be cheerfully refunded by the agent where the medicine is bought.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally morning, noon and night. It will not only cure the pain but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhœa or a relaxed state of the bowels take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced.

If you have the Tooth-ache, apply the Pain Panacea on a piece of cotton and bathe gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe parts affected morning and night, at the same time take a dose of the Panacea internally.

If a Mother has a caked breast apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut or galls upon your horse, apply the Pain Panacea. It will take out all the inflammation and heal the sore in a short time.

From St Louis, Missouri, to Lewiston, W T, via Fort Benton, Bitter Root, Fort Owen, and Elk City

Mr Coll Van Cleve, formerly of Belleville, Illinois, and recently an officer in the 9th Illinois Regiment arrived here a few days ago from St. Louis, he and two companions being among the first of the through immigration via Fort Benton The following from his "notes by the way," will be read with interest:

Ed. Golden Age —At your request I will attempt to give you a description of the route from St. Louis, Missouri, via Fort Benton, Dacotah Territory, Fort Owen and Elk City to this place, a distance, as computed by "old settlers," of near four thousand miles. Myself and two "chums," Lieut. J. P. Ash and Sam'l Bellair, together with sixty or seventy other passengers, left St. Louis on the little steamer Shreveport, at 12 o'clock M, on the 29th day of April, in the year of our Lord 1862 After passing Jim Town, near two thousand miles above St. Louis, game of all kinds became plenty; the river was higher than ever before known by the "oldest man in the world." We constantly met droves of buffalo crossing and re crossing the river, and numbers of these monarchs of the Plains were killed by passengers, with revolvers, shot-guns and rifles, as our little craft plowed her way over and through the moving mass Of course there was no lack of wild game where there there were so many good shots, and our table was constantly served with buffalo, antelope, deer, elk, sage-hens, etc, "till you couldn't rest." As our boat "tied up" at 9 o'clock each evening and didn't get under-way until about four in the morning, the disciples of I. Walton, Esq., had a fine opportunity afforded them to display their skill in enticing members of the finny tribe fr[illegible], their beds in the muddy Missouri, and many were the cat-fish that were "hooked" by experts in the art. In relation to this wholesale murder of the finny tribe, our poet (we had a live poet on our boat, "bet your life,") apostrophized thus

> Poor little fish, vain, vain is your wish
> To stay in this dark, muddy river;
> For fate has decreed that you in your need
> Be caught with buffalo liver!

Hunting, fishing, and meeting now and then a war party of Sioux Indians on their way down the river, in "bull boats," (a green buffalo hide stretched over a frame-work of wood, resembling, in shape, a large tub, capable of holding three or four persons,) to steal ponies and take scalps from some of the neighboring tribes, the time passed pleasantly enough for the first month, after which there was considerable dissatisfaction manifested by the passengers on account of the slow progress of the boat.— The Shreveport was commanded by Capt. J. B. La Barge. The steamer Emilie, Capt. Joe La Barge, caught up with us about 100 miles below Fort Benton, at the foot of the fifth rapids, and taking us in tow, landed us at Fort Benton two days afterward, to-wit: Tuesday, 16th of June. On the following Saturday the Fur Company's boats, Spread Eagle and Key West, arrived, making four steamboat arrivals at this port for the season. The river commenced receding very rapidly about the 20th, and three of the boats left at the double quick for St. Louis, leaving the Shreveport, as was the intention of the Captain, to come down about the middle of September; but the river fell so rapidly that Capt. B. thought best to "git," and about the 1st of July the Shreveport shoved out for the States. It is very much doubted by your humble servant whether it will be possible for another boat to get up to Benton or the mouth of the Yellowstone, eight hundred miles below, during the [illegible] season. The four boats mentioned brought up some two hundred passengers, nearly or quite half of whom returned to their homes in small boats after prospecting for a few weeks.

We found, upon our arrival at Benton, that ponies, heretofore worth from $5 to $20, had suddenly become very scarce— they had passed through an awful hard winter, many ponies dying from hunger—hostile Indians had stolen whole bands, and they couldn't think of parting with even the meanest Cayuse, with a sore back, blind, and four game legs, for a less sum than $40 and from that up to $125.

Benton is a mere trading post, owned by the American Fur Company. There are no buildings in Benton outside the two forts—in fact, when you see the two forts, you see all of Benton. The small fort is an insignificant affair, inhabited at present by an old Mexican and a number of cows and calves. The main fort is substantially built of sun-dried brick, probably 300 feet square, inside of which live the employees of the Company. On our first visit to this fort we imagined, on getting an inside view, that we were in a vast hog-pen; it was a perfect sea of mud and filth, sending forth an intolerable stench under the scorching rays of the June sun—and it *was* warm. How white men could live in such filth is surprising.

By paying enormous prices for "bones," we succeeded in obtaining the necessary number of ponies and pack-saddles, and having become sick and disgusted with Bentonites, we gladly bid adieu to the vicinage at noon on the 22d of June, and taking Lieut Mullan's (lately promoted, we learn, to a Major-ship) Wagon Road, we "lit out" for the gold diggings.

From Benton to Sun River, water and wood are scarce, and the former bad, alkalied—the distance is about sixty miles Sun River is a beautiful little stream of water, clear and cold as ice, and full of fine trout and other fish. From Benton to Sun River the road is fine—there are but two hills that need trouble teams, the road generally being level and smooth as a barn floor. Here, about a mile above the ferry, is "Government Farm," as it is called, where Uncle Sam keeps, at $50 per month, probably half a dozen men, to do—we didn't succeed in ascertaining exactly what.

Ten or fifteen miles from Sun River you strike the hills and then the road becomes tolerable rough; there is, however, plenty of good grass and wood, and as to water, it was too plentiful, but the sweetest, coldest, clearest that mortal ever drank. Game was to be met with now and then, and the streams abounded in fine large trout and salmon—throw in your hook baited with a grasshopper, which latter, by the way, were almost as numerous as "the sands on the shore," and in ten minutes you had a mess, and they *do* make good victuals We met very few Indians between Benton and Deer Lodge, which latter place we reached and passed on the 3d of July about noon, a distance of 180 miles On the 4th we reached the mines, Pioneer Gulch, 28 miles from Deer Lodge and about seven miles south of Mullan's road Here we obtained some fresh beef at 15 cents per pound, and buttermilk at 50 cents per gallon, and with slap jacks and sugar we had almost a "square meal" On the 5th we stuck up notices informing the "world and the rest of mankind" (or is that "out"?) that we claimed so many feet of dirt in P. G, and on the 7th, we lit in among the boulders in a style somewhat similar to Joseph Bowers, Esq, of vocal celebrity.

☞ In one of the New York churches, last Sunday, the clergyman concluded his sermon as follows: "But I hear the rustling of silk in the pews, as it some of the ladies are impatient to leave; I will therefore say, God bless you!"

☞ The man who plays at once on the trump of fame and the horn of a dilemma, got his first ideas of music on hearing a hay cock crow. while he was engaged in tying a knot in a cord of wood

SACRAMENTO STREET BELOW MONTGOMERY

Opposite Pacific Mail Steamship Company's Office, San Francisco.

ESTABLISHED IN 1854 FOR THE PERMANENT cure of all Chronic and Private Diseases, and the SUPPRESSION OF QUACKERY Attending and Resident Physician, L J CZAPKAY M D, Late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, the late Lecturer on Diseases of the Urinary Organs and Diseases of Women and Children and Honorary Member of the Philadelphia College of Medicine.

☞ Particular attention paid to the treatment of diseases peculiar to Women and Children.

Office Hours—From 9 A M to 9 P M

☞ Communications strictly confidential Permanent cure guaranteed, or no pay Consultations, by letter or otherwise, FREE

Address, DR L J CZAPKAY, San Francisco

Of all diseases, the first great cause,
Springs from neglect of Nature's laws

To the Afflicted:

Suffer not when a cure is guaranteed in all stages of secret diseases—Self-Abuse, Nervous Debility, Syphilis in all its stages, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St Vitus Dance—and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, Loss of Sight, Wakefulness Dyspepsia, Liver Disease, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure The medicines prescribed are pleasant, without odor entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice in Europe the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above-mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family A permanent cure is scarcely ever effected —a majority of cases falling into the hands of incompetent persons who not only fail to cure the disease but ruin the constitution filling the system with mercury, which with the disease hastens the sufferer into a rapid consumption But should the disease and the treatment not cause death speedily and the victim marries the disease is entailed upon the children who are born with feeble constitutions and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering and consigning them to an early grave

Self abuse is another formidable enemy to health for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system—drawing its thousands through a few years of suffering down to an untimely grave. It destroys the nervous system rapidly wastes away the energies of life, causes mental derangement prevents the proper development of the system disqualifies for marriage, society business and all earthly happiness and leaves the sufferer wrecked in body and mind predisposed to consumption and a train of evils more to be dreaded than death itself With the fullest confidence I assure the unfortunate victims of self abuse that a permanent and speedy cure can be effected and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health

Irregularities and all diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures — Medicines, with full directions sent to any part of the State, Oregon and Washington Territory, by patients communicating their symptoms by letter

All business correspondence strictly confidential Address DR L J CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co's Office, San Francisco

Remarkable Instance of Medical Relief

Below we publish the certificates of three of the sufferers from the pangs of disease, who, having recovered their former health and impelled by gratitude make known their cases and remedial agent and their statement are authenticated by a Notary Public The demands of society imperatively command their publicity and we commend their perusal to the attention of all afflicted

Certificate —The undersigned desirous of acquainting those who may be unfortunate enough to be similarly afflicted where a permanent relief of their sufferings may be obtained, feels it his duty thus publicly express his most sincere gratitude to Dr L J Czapkay for the permanent recovery of his health Borne down by the distressing symptoms incident to the vicious practices of uncontrollable passion in youth depressed in body and mind unable to perform even the most trifling duty imposed upon the ordinary avocations of life I sought the advice of many physicians, who at first regarded my disease as of trifling importance—but alas after a few weeks, and in several instances, months of their treatment, I found to my unutterable horror that instead of relief, my symptoms became more alarming, in their torture, and being told by one that my disease being principally confined to the brain, medicine would be of little or no importance I despaired of ever regaining my health strength and energy, and as a last resort and with but a faint hope I called upon Dr Czapkay, who, after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by the result I resolved to place myself immediately under his care and by a strict obedience to all his directions and advice my head became clear and my ideas collected, the constant pain in my back and groins the weakness of my limbs the nervous reaction of my whole body on the slightest alarm or excitement, the misanthropy and evil forebodings, the self distrust and want of confidence in others, the incapability to study and want of resolution, the frightful exciting and at times pleasurable dreams at night, followed by involuntary discharges have all disappeared and in fact in two months after having consulted the doctor I felt as if inspired by a new life that life which but a short time ago I contemplated to end by my own hand With this view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merit and skill of Dr Czapkay, and to commend him to all who may stand in need of medical advice being assured by my own experience that once under his care a radical and permanent cure will be effected.

MARYSVILLE June 3d 1855

Dr. L J CZAPKAY, San Francisco Sir I have used the last of your medicine and do not think I shall need any more, as I feel very well, except that I have not entirely got my strength yet I trust soon will with the appetite I have. It is just three weeks, you may recollect, since I called at your Institute, with my constitution, as I thought, broken entirely and never thought you would be able to cure me perfectly but thought you might be able to do something for me for the pain in my back and head, and strengthen my nerves so that I would not get excited and tremble at everything Now that you know what I expected you may judge of my satisfaction at my complete recovery from those symptoms and the removal of those sores and blotches from my skin, and the ulcers from my throat, and the entire stoppage of those emissions which you said were principally the cause of my sickness I can hardly tell you which is the greatest my joy or my surprise, for except not having fully got my strength, I feel as well as any man can feel

Enclosed I send you twenty dollars over your charge, and thank myself cheaply cured. If you think anybody will be benefited, you may put this letter in the newspapers Believe me gratefully yours, THOMAS HAYDEN

Thankfulness is the incentive to gratitude.

CERTIFICATE —Prompted by an honest desire of my heart, I wish to lay before the public a case which deserves a commendation not only as an act of scientific skill, but that of humanity also About two years ago, I suddenly, and from causes unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement with which I met with on attempting it, soon became such (I was then led to believe) as to defy the skill of any physician I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning; and although insensible to the agonies, I yet despised the miseries of my life, and soon learned to look upon those who would render assistance or shelter me from danger as enemies who sought to prolong the existence of my miseries, While in this state, and having, previous to my affliction, tasted the sweets of life, I once more was induced to attempt seeking aid of a physician, and, by recommendation, called upon Dr L J Czapkay I told him of my circumstances, and of my inability to reward him for his services regardless of which however, he at once undertook my case, and with the blessing of God I was once more restored to perfect health Unable to reward him for the boon which I enjoy at present and yet conscious of my indebtedness, I consider it due to myself and all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed,
